

## ■ Drawn Wire

The wire results from the wire-drawing of wire rods, with different gauges and with different levels of carbon. The characteristics of this wire allow it to be used in many different fields.

<b>Technical Specifications:</b>				
<b>Lenght in feet</b>	<b>Diameter</b>	<b>Approximate weight / package (lbs)</b>	<b>Weight per unit</b>	<b>Type</b>
20	4.50	52.00	1.73	Smooth
20	4.50	52.00	1.75	Corrugated
20	5.50	75.00	2.50	Smooth
20	4.00	42.00	1.40	Smooth
12	4.45	32.00	1.04	Smooth
12	4.65	34.00	1.11	Smooth

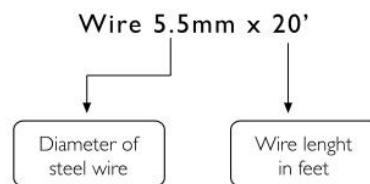

\* Available in diameters of 6.35 mm, upon customer's request.

### Stock dimensions:

- Wire 4.5mm x 20'
- Wire 5.5mm x 20'
- Wire 4mm x 20'

Special lengths and roll packing available.

### Nomenclature:

### Packing:

This product is presented in packages with 22 packs that have 30 rods each. Special packing available upon request.

### Uses:

Manufacture of springs, mattresses, and nails among others.
